

# FortiFone FF-60b

## Bluetooth® Module

This document provides information about the FF-60b installation for the FON-550i. Refer to the *FON-550i User Guide* for more information.

### Package contents

The following items are included in your FF-60b package. Before installation, ensure that you have the following package contents:

- FF-60b module with cover
- Install Guide

### Before you start

Before installing the FF-60b module, unplug the power supply or PoE LAN cable.

### Installation procedures

1. Remove the cap from the phone.

2. Remove the protective rubber cover from the FF-60b. Insert the FF-60b into the slot and push it down *hard* until the FF-60b is firmly in place.

3. This is the front view of the phone after the installation.

**Important:** If the FF-60b has been correctly installed, the red LED on the module will automatically turn on when the phone is powered up.

## Adding a *Bluetooth* headset for the first time

### Pairing a *Bluetooth* headset

A *Bluetooth* headset must be paired with the FF-60b *Bluetooth* module before it can be connected (activated). Up to five (5) headsets may be paired with the FON-550i at one time. Only one headset can be used at a time. Once paired, the phone can be placed on and off hook using a compatible *Bluetooth* headset.

To pair and connect a new headset with the FON-550i:

1. Press the  button.
2. Press 3 to access the *Phone Settings* menu.
3. Press 1 2 to access the *Bluetooth* menu.
4. Press 1 to access the *Headset Management* menu.
5. Press the *Search* softkey. The phone will search for nearby *Bluetooth* headsets.
6. Locate a *Bluetooth* headset from the list of headsets using the *Down* softkey, then press the *Select* softkey.

7. When the *Enter PIN Code* message displays, input the PIN associated with the headset and press the *OK* softkey. If a valid PIN is entered, then it will display the message *Headset Connected*.

Please refer to your headset's User Guide for the PIN code. The default is usually 0000.

8. Press the  button to exit the configuration session.

### *Bluetooth* headset status indicators

-  The *Bluetooth* icon, indicates the optional *Bluetooth* module is properly installed with no headsets paired to the phone. When blinking rapidly, the FON-550i is searching or attempting to pair with a headset.
-  The *Bluetooth* paired icon, indicates one or more (maximum 5) headsets are paired with the module but none are active. When blinking rapidly, the FON-550i is attempting to pair or connect a headset.
-  The *Bluetooth* connected icon, indicates a headset is connected to the FON-550i. When blinking rapidly, the FON-550i is searching or attempting to pair or disconnect a headset. When blinking slowly, the *Bluetooth* headset is in use.

For additional information on using headsets with the FON-550i with the FF-60b *Bluetooth* module installed, please read the *FON-550i User Guide* at <http://docs.fortinet.com>.
